APPENDIX

Revenue Act of 1924, c. 234, 43 Stat. 253:

SEC. 204. * * *

(c) The basis upon which depletion, exhaustion, wear and tear, and obsolescence are to be allowed in respect of any property shall be the same as is provided in subdivision (a) or (b) for the purpose of determining the gain or loss upon the sale or other disposition of such property, except that in the case of mines, oil and gas wells, discovered by the taxpayer after February 28, 1913, and not acquired as the result of purchase of a proven tract or lease, where the fair market value of the property is materially disproportionate to the cost, the basis for depletion shall be the fair market value of the property at the date of discovery or within thirty days thereafter; but such depletion allowance based on discovery value shall not exceed 50 per centum of the net income (computed without allowance for depletion) from the property upon which the discovery was made, except that in no case shall the depletion allowance be less than it would be if computed without reference to discovery value.

SEC. 214. (a) In computing net income there shall be allowed as deductions:

* * * * *

(9) In the case of mines, oil and gas wells, other natural deposits, and timber, a reasonable allowance for depletion and for depreciation of improvements, according to

the peculiar conditions in each case; such reasonable allowance in all cases to be made under rules and regulations to be prescribed by the Commissioner, with the approval of the Secretary. In the case of leases the deduction allowed by this paragraph shall be equitably apportioned between the lessor and lessee;

Revenue Act of 1926, c. 27, 44 Stat. 9:

SEC. 274. (a) If in the case of any taxpayer, the Commissioner determines that there is a deficiency in respect of the tax imposed by this title, the Commissioner is authorized to send notice of such deficiency to the taxpayer by registered mail. Within 60 days after such notice is mailed (not counting Sunday as the sixtieth day), the taxpayer may file a petition with the Board of Tax Appeals for a redetermination of the deficiency. Except as otherwise provided in subdivision (d) or (f) of this section or in section 279, 282, or 1001, no assessment of a deficiency in respect of the tax imposed by this title and no distraint or proceeding in court for its collection shall be made, begun, or prosecuted until such notice has been mailed to the taxpayer, nor until the expiration of such 60-day period, nor, if a petition has been filed with the Board, until the decision of the Board has become final. Notwithstanding the provisions of section 3224 of the Revised Statutes the making of such assessment or the beginning of such proceeding or distraint during the time such prohibition is in force may be enjoined by a proceeding in the proper court.

(b) If the taxpayer files a petition with the Board, the entire amount redetermined

as the deficiency by the decision of the Board which has become final shall be assessed and shall be paid upon notice and demand from the collector. No part of the amount determined as a deficiency by the Commissioner, but disallowed as such by the decision of the Board which has become final shall be assessed or be collected by distraint or by proceeding in court with or without assessment.

(c) If the taxpayer does not file a petition with the Board within the time prescribed in subdivision (a) of this section, the deficiency, notice of which has been mailed to the taxpayer, shall be assessed, and shall be paid upon notice and demand from the collector.

(d) The taxpayer shall at any time have the right, by a signed notice in writing filed with the Commissioner, to waive the restrictions provided in subdivision (a) of this section on the assessment and collection of the whole or any part of the deficiency.

SEC. 277. * * *

* * * * *

(b) The running of the statute of limitations provided in this section or in section 278 on the making of assessments and the beginning of distraint or a proceeding in court for collection, in respect of any deficiency, shall (after the mailing of a notice under subdivision (a) of section 274) be suspended for the period during which the Commissioner is prohibited from making the assessment or beginning distraint or a proceeding in court, and for 60 days thereafter.

* * * * *

SEC. 283. (a) If after the enactment of this Act the Commissioner determines that

any assessment should be made in respect of any income, war-profits, or excess-profits tax imposed by the Revenue Act of 1916, the Revenue Act of 1917, the Revenue Act of 1918, the Revenue Act of 1921, the Revenue Act of 1924, or by any such Act as amended, the Commissioner is authorized to send by registered mail to the person liable for such tax notice of the amount proposed to be assessed, which notice shall, for the purposes of this Act, be considered a notice under subdivision (a) of section 274 of this Act. In the case of any such determination the amount which should be assessed (whether as deficiency or as interest, penalty, or other addition to the tax) shall, except as provided in subdivision (d) of this section, be computed as if this Act had not been enacted, but the amount so computed shall be assessed, collected, and paid in the same manner and subject to the same provisions and limitations (including the provisions in case of delinquency in payment after notice and demand and the provisions prohibiting claims and suits for refund) as in the case of a deficiency in the tax imposed by this title, except as otherwise provided in section 277 of this Act.

Revenue Act of 1928, c. 852, 45 Stat. 791:

SEC. 504. SUSPENSION OF RUNNING OF STATUTE OF LIMITATIONS.

(a) Section 277 (b) of the Revenue Act of 1926 is amended to read as follows:

"(b) The running of the statute of limitations provided in this section or in section 278 on the making of assessments and the beginning of distraint or a pro-

ceeding in court for collection, in respect of any deficiency, shall (after the mailing of a notice under subdivision (a) of section 274) be suspended for the period during which the Commissioner is prohibited from making the assessment or beginning distraint or a proceeding in court (and in any event, if a proceeding in respect of the deficiency is placed on the docket of the Board, until the decision of the Board becomes final), and for 60 days thereafter."

(b) Subsection (a) of this section shall apply in all cases where the period of limitation has not expired prior to the enactment of this Act.

Treasury Regulations 65, promulgated under Revenue Act of 1924:

ART. 222. DISCOVERY-PROVEN TRACT OR LEASE—VALUE DISPROPORTIONATE TO COST.—(1) For the purpose of section 204 (c) of the Revenue Act of 1924, an oil or gas well may be said to be discovered when there is either a natural exposure of oil or gas, or a drilling that discloses the actual and physical presence of oil or gas in quantities sufficient to justify commercial exploitation. Quantities sufficient to justify commercial exploitation are deemed to exist when the quantity and quality of the oil or gas so recovered from the well are such as to afford a reasonable expectation of returning at least the capital invested in such well through the sale of the oil or gas, or both, to be derived therefrom.

(2) A proven tract or lease may be a part or the whole of a proven area. A proven area for the purposes of this statute shall be presumed to be that portion of the productive sand or zone or reservoir in-

cluded in a square surface area of 160 acres having as its center the mouth of a well producing oil and/or gas in commercial quantities. In other words, a producing well shall be presumed to prove that portion of a given sand, zone, or reservoir which is included in an area of 160 acres of land, *regardless of private boundaries.* The center of such square area shall be the mouth of the well, and its sides shall be parallel to the section lines established by the United States system of public-land surveys in the district in which it is located. Where a district is not covered by the United States land surveys the sides of said area shall run north and south, east and west.

So much of a taxpayer's tract or lease as lies within an area proven either by himself or by another is "a proven tract or lease" as contemplated by the statute, and the discovery of a well thereon will not entitle such taxpayer to revalue such well for the purpose of depletion allowances, unless the tract or lease had been acquired before it became proven. And even though a well is brought in on a tract or lease not included in a proven area as heretofore defined, nevertheless it may not entitle the owner of the tract or lease in which such well is located to revaluation for depletion purposes, if such tract or lease lies within a compact area which is immediately surrounded by proven land, and the geologic structural conditions on or under the land so inclosed may reasonably warrant the belief that the oil or gas of the proven areas extends thereunder unless the tract or lease had been acquired before it became so proven. Under such circumstances the entire area is to be regarded as proven land.

(3) The "property" which may be valued after discovery is the "well." For the purposes of these sections the "well" is the drill hole, the surface necessary for the drilling and operation of the well, the oil or gas content of the particular sand, zone, or reservoir (limestone, breccia, crevice, etc.) in which the discovery was made by the drilling, and from which the production is drawn, to the limit of the taxpayer's private bounding lines, but not beyond the limits of the proven area as heretofore provided.
